

PRESENTATION EQUIPMENT:

My presentation consists of an introduction, a power point presentation about the process of making a picture book, a question and answer session and ends with a literacy game. I bring sketches, original art and samples of other types of illustration to augment the presentation. I've presented for schools in the area and throughout the U.S. for grades k-undergraduate studies, though I specialize in presentations for Grades K-5 as that is my core audience! (please see attached description).

The size of the group can vary depending on the grade level (we can discuss) and my fee per presentation- aprox. 45-55 minutes. I am always keen on including a book signing as part of the visit, if that interests you.

When I visit I will need:

- A laptop computer
- A digital projector
- A screen for projection
- A microphone (only for a larger audience or in a space with minimal acoustic quality).
- An easel, large drawing pad and many colorful markers.
- A long table or two for display of books, originals sketches etc.
- **VERY IMPORTANT- a room that can be darkened to show slides- this is essential for best results.**

I look forward to visiting your school!
